A new source of youth for cosmetics Amiporine

par / by M. Cédrix Chaix

Export Manager North and South America, Alban Muller International

Conférence en anglais / Conference will be held in English

About the speaker

Cédric Chaix has graduated from a French business school, after he graduated from a BA in Botanical Biology.

Before he joined Alban Muller International (AMI), he used to work for a garment company of the luxurious industry, where he was a Sales Manager.

Cédric Chaix has been with AMI for 3 years, as Export Manager for both North and South America. Alban Muller International, also known as, The Natural Product Designer, has been in the botanicals extraction industry for 25 years, and has a great expertise in all the cosmetic, food and pharmaceutical applications.

Cédric Chaix will be glad to explain all the approach of AMI to develop new products, such as Amiporine, an hydrating anti ageing active based on a purified extract of Punica grenata extract, stabilised in glycerine, conditioned without preservative, that acts on natural water circulation by stimulating skin specific aquaporines.
