**About the Seminar**

The afternoon session with Daniel H. Maës on the following subjects: Anti Inflammation, Anti-Glycation and Photoprotection. Three subjects 45 minutes each with question period.  
 The morning session with Patricia Aikens: The title will be: «Photoaging of the skin, antioxidants, and treatment products». This will cover the physiology of photoaging compared to intrinsic aging, especially with respect to generation of reactive oxygen species. It will also cover the role of antioxidants and the mode of action within the skin of various treatment options to reverse the appearance of wrinkles and the signs of photoaging.  
 Conferences will be held in English. Question periods in English and also in French with Dr. Maës.
